OUR JEWELRY COLLECTION

Using fashion as benchmark for creative inspiration, ELLE Jewelry designs reflect the most up-to-date and ready-to-wear trends. Like the pages of ELLE magazine, ELLE Jewelry evolves from season to season, as colors and fashion trends change. The ELLE Jewelry collection offers a distinguished look and edge that is chic, modern, and bold. Ultimately, we believe accessories should be a personal expression, away of celebrating a woman's love of style!

925, THE PRECIOUS NUMBER

Sleek, expressive and definitely chic, the ELLE Jewelry Collection is lovingly crafted from only 925 Sterling Silver. Each piece understands modern elegance and delivers luxury without being pretentious. The collection reigns in sensuality, simplicity and subtlety.

Each ELLE Jewelry Collection piece is finished with a layer of palladium and a layer of rhodium. This double combination promotes shine and durability, with hypoallergenic materials that resist tarnishing.

» **PALLADIUM** is a soft silver-white metal that resembles platinum.

» **RHODIUM** is a precious white metal, is used to give the jewelry a white color

RUBY TRADEMARK

ELLE Jewelry features a signature created ruby trademark, which poignantly symbolizes a woman's inner strength and beauty. The ruby is set in a square motif and its location changes with every piece, adding a personal touch with a beautiful and unique meaning for the woman who wears it.

THE COLLECTION STONES

The ELLE Jewelry Collection associates Sterling Silver with many different types of stones designed for the resolutely modern women with effortless style. This is jewelry that can be worn on a daily basis with many colors, materials, and for all occasions, whatever the mood and style.

SEMI-PRECIOUS GEMSTONES

Topaz, Amethyst, Peridot, Citrine

PEARLS

White, Grey, Pink, Champagne

CUBIC ZIRCONIUM

Micro Pavé

OPAQUE GEMSTONES

Agate, Turquoise, Quartz, Tiger Eye

MOTHER OF PEARL

The iridescent coating on the inside of oyster shells

CRYSTALS

High-quality glass resembling rock crystal
